Sales Analysis — All Regions | All Categories

Summary

The analysis shows strong overall revenue of **£60.7M** with a **7.5% profit margin**, driven largely by high-performing categories such as **Furniture, Technology, and Office Supplies**. Regional sales are evenly distributed, indicating a balanced customer base across markets.

Key Insight:

Higher discount levels increase sales but significantly reduce profit margins. Optimizing pricing strategies and focusing on top-selling products can improve profitability while sustaining strong regional demand
